

BLOCKCHAIN MY CITY!

Using Cryptocurrencies for increased Revenues, Tourism & Economic Growth

1 ZERO TAX

City Hall mails a formal Letter to all registered businesses declaring ZERO sales tax (or VAT) and ZERO income tax on all Crypto sales.

2 TAX HAVEN

Chamber of Commerce advertises your City as a TAX HAVEN, and provides discount vouchers on tablets, smartphones, window decals and signage for businesses, etc.

3 TAX BENEFITS

Entrepreneurs open, and register their business in your City for the tax (and many other) benefits.

4 INFRASTRUCTURE

Local brick and mortar businesses are provided with free internet service from the City. All these companies can now offer their products and services globally, by accepting any of the 900+ Cryptocurrencies, at zero cost.

5 CITY TOKENS

Businesses earn City Tokens based on their sales volume, similar to Loyalty Points. Holders of City Tokens can earn a passive income from the trading fees of the City Tokens that they hold. This gets more and more people to invest in their City.

6 COMPANY TOKENS

Businesses can raise money by offering their own Company Token, and keep 100% of the fees from its trading activity. These tokens can also act as Loyalty Points for their global (not just local) customer base.

7 PASSIVE INCOME

City Hall and PalmPay Ambassadors can earn at least 0.1% of every transaction, from every customer, at every registered business, every 3 seconds.

8 ECONOMIC GROWTH

City Hall earns much higher (traditional) tax revenues from increased economic activity, as well as an explosion in registered voters and new residents.

9 IPO PROFITS

City Hall “goes public” on the Blockchain, where their City Tokens are sold, and traded publicly. 100% of the money raised goes to the City, as well as $n\%$ of the fees from its trading activity ($\%$ depends on size of City, and token supply).

AUTOMATED, FUTURE-PROOF, FREE.
